HISTORY OF ASAA

ASAA's roots predate statehood. In the early 1950s, school leaders in the Territory of Alaska recognized the need to separate the high school basketball program from the local town business leagues. William Zahradnicek of Palmer, and W.W. Lahnum and Gordon Guffey of Anchorage, joined forces to organize the Western Alaska High School Activities Association. Sterling Sears of Juneau, Les Wingard, J.E. Danielson of Ketchikan were moving ahead at the same time to form the Southeast Alaska Activities Association with a mandate to ensure educational leadership.

In 1956, the Territorial Department of Education Superintendents Advisory Commission determined the need for an organization that could establish common rules and regulations to guide the activities of the two associations. In the Fall of 1957, the commission approved the Constitution and Bylaws of the Alaska High School Activities Association (ASAA). Officers representing the two divisions were elected. The first Board of Control consisted of William Zahradnicek, Palmer, as Chairman, J.E. Danielson, Ketchikan, Secretary-Treasurer; and members George McMillan, Juneau, Joe Montgomery, Anchorage, and Sterling Sears, Juneau.

This informal arrangement worked very well until the early 1970s, when the State Legislature added a section to the Educational Statutes placing the Association under the Department of Education. School populations and the number of participating schools were increasing. After many meetings, the two original associations became five distinct Regions based on school size and geographic location. One year later, in 1976, Regions increased to six. The new Board of Control consisted of one member from each Region, a representative of the Association of Alaska School Boards, and a representative of the Superintendents Association. In 1978, the board added a representative of the Alaska Association of Student Governments.

Due to the increasing number of schools participating in boys and girls basketball, the need for additional statewide culminating events became evident. This required the formation of a classification system that spanned all of the Regions. This task fell to a committee composed of representatives from all six Regions. It was known as the "Black and Blue" Ribbon Study Commission because of the difficulties faced in satisfying the needs of each Region. In June 1981, the Board of Control adopted the Commission's recommendation to establish four classifications based on school enrollment with some overlap in the two smallest classes due to geographic location. The first statewide event for the smaller classes was an invitational basketball tournament held in Anchorage in 1983-84.

In 1986, the Department of Education eliminated funding for ASAA. The Board of Control voted to incorporate as a 501(c)(3) non-profit corporation, beginning July 1, 1987. Because of ongoing jurisdictional issues between the Association and the State of Alaska, both entities sought a legal resolution. This resulted in the 1995 repeal of the Legislative Statute that had placed ASAA under the Department of Education.

In 2007, in order to ensure consistent tobacco, alcohol and controlled substances policies by member schools and districts, the Board of Directors adopted the "Play for Keeps-Win for Life" program for all student participants. In 2011, the Alaska Legislature passed House Bill 15, (amended in 2012 under Senate Bill 119), that sets standards for concussion awareness, education, treatment and return to participation protocols. ASAA developed recommended policies and procedures to assist in the implementation of the law. In 2013, the Alaska Legislature passed Senate Bill 41 that addressed interscholastic participation by "alternative education program students." ASAA developed bylaws and policies to assist schools, students and families in the implementation of the statute.

Currently, the Alaska School Activities Association serves over 200 schools and 26,000 student participants. These student participants are active in 22 athletic activities and 6 academic activities culminating in 54 State Championship events! Without the support of the schools, students, coaches/advisors, parents, and fans ASAA couldn't be as successful as it has been since 1956. **THANK YOU!**

CULTURE TRIVIA

Students take a 50-question test based on the cultures of their target language. Most of the multiple choice questions are taken from Teachers Discovery Culture Trivia. Students in 1st and 2nd levels take the test in English, while 3rd and 4th level students take the test in their target language.

POETRY RECITATION

Students memorize and deliver classic and contemporary poems in their target language. They recite two poems -one required and one alternate of their choice from an approved list. Students are judged on memorization, pronunciation, delivery and expression.

DIALOGUES & IMPROMPTU

Students use their knowledge and language skills to respond to real-world questions. After each student or pair of students (for dialogues) selects a different question, they have two minutes to prepare. This contest is a true test of a student's fluency and spontaneity in the target language.

10 TIPS

FOR SUPPORTING THE

MENTAL WELL-BEING

OF STUDENTS

WANT TO SUPPORT THE HIGH SCHOOL STUDENTS IN YOUR LIFE?

LET THEM KNOW YOU CARE.

They want someone to invest in them. To make them feel seen and heard. To love them for who they are and who they're becoming. **Be that person.**

Reference these 10 tips before each season and implement the #WeSeeYou culture within your athletic department. You can also distribute them to teachers, principals, superintendents and other school staff.

1. UNDERSTAND THE REAL DEFINITION OF MENTAL HEALTH.

"Mental health is a state of mental well-being that enables people to cope with the stresses of life, realize their abilities, learn well and work well, and contribute to their community," per the World Health Organization. It's a spectrum that is less often about extremes or crises and more often about coping with everyday challenges—most of us live in the middle.

2. ACKNOWLEDGE AND CONNECT WITH ALL STUDENTS.

All students—not just the ones who help win championships—want to feel seen by someone who matters to them, like a coach, athletic director or teacher.

3. KEEP IN MIND THAT STUDENTS ARE SEEING LIFE THROUGH A HIGHLIGHT REEL.

Teenagers are "seen" a lot on social media, but are they seen for who they truly are? Be the person who wants to know and support the real them.

4. CREATE A CULTURE WHERE EVERYONE IS LOOKING OUT FOR EACH OTHER.

It is not one sole person's responsibility to check in and see how everyone on the team is doing. We can all play a part in noticing, acknowledging and offering support to one another.

5. REMEMBER YOUR INFLUENCE IS GREATER THAN YOU OFTEN REALIZE.

Far beyond their athletic potential, you can make subtle differences in your students' lives by paying attention to their behavior and who they are as people.

6. DON'T FORGET WE ALL HAVE DIFFERENT CAPACITIES FOR STRESS.

And it can change day to day. Rather than judging the validity of someone else's stressor, consider how many stressors they are juggling at one time and empathize that they may have one too many to handle at once.

7. DETERMINE IF STUDENTS ARE "SORE" OR IF THEY ARE "INJURED."

Like with physical endurance, coping with stress can feel exhausting. But it's important to notice the difference between being "sore" (feeling anxious or down) and being "injured" (a mental health crisis). Help your students work through their "soreness" by developing coping skills to build stamina.

8. OFFER SUPPORT AND GUIDANCE.

While most high school students might not experience a mental health crisis, they are still faced with adversities they have never dealt with before. Remember it's not your job to diagnose or treat; it's your job to offer support and guidance and teach them how to be resilient.

9. ENCOURAGE STUDENTS TO GET MORE SLEEP.

A consistent lack of sleep is directly correlated with lacking the ability to cope with stress properly.

10. CONTINUE SEEKING RESOURCES.

Again, the mental well-being of students is not one sole person's responsibility. Surround yourself with resources to reference and a network of support to turn to.
